## HI THERE,

Passionate, creative problem solver seeks supportive team environment and opportunity for learning & growth.

**UX Design Bootcamp**  
February 2015 **General Assembly**

### UX/UI designer & front end developer PowWow Hr

Hired as a web designer and marketing manager, promoted to designer/developer within four months. Redesign entire suite of web apps and websites to better suit users' needs, update design, and create a cohesive feeling across various platforms in-line with the company's newly created brand, which I was instrumental in creating.

### Web designer/developer & marketing manager

**PowWow Hr** June 2015-June 2016

Created a visual identity for products' social media and online presence.

### Junior Front End Developer

**Space Studio**

### Intern, Front End Developer

**Space Studio** January-May 2015

Develop and maintain web applications and sites, create marketing content, contribute to branding identity of company

### Teacher's Assistant, Front End Engineering

**The Iron Yard** January-May 2015

Assist in front end engineering cohort at The Iron Yard. Provide one-on-one assistance to students; check for completeness & accuracy of assignments, aid in research and creation of final projects.

**Certificate, Front End Engineering**  
September-December 2014 **The Iron Yard**

Intensive code academy, learning through hands-on, real world experiences. 60-80 hours a week dedicated to learning the fundamentals of front end web development and how to learn as a developer. Participated in an internal hackathon and taught Kids Academy classes through the Iron Yard while in school.

### Front Desk Manager

**Rooster's Men's Salon** January 2013-January 2014

### Copywriter

**Mr. Arlo** June-December 2012

**BA English, Minor in Creative Writing**  
**Georgia State university** December 2011
